How WashU makes it work for you financially

Did you know that WashU's average financial aid offer is more than \$75,000? That means your aid offer could be greater than the cost of our tuition.

All you need to do is apply for financial aid, and we'll consider you for all types of need-based aid. We'll also waive your application fee.

We meet 100% of demonstrated need for all admitted students without loans.

We don't consider home equity when determining financial aid offers.

The WashU Pledge covers the cost of tuition, fees, housing, and food for all four years for qualifying students from Missouri and southern Illinois.

These initiatives are part of our commitment to ensuring that all admitted students can obtain a world-class WashU education without going into debt.

WashU

Amplify your future

2026-27

Amplify your future

At WashU, we celebrate your drive and help you go even further. You'll learn from faculty who are leaders in their fields. But we believe there's more to your college experience than top-notch academics. We want to learn about you—and from you. Together, we help each other succeed and work toward a brighter future.

Career readiness

Our Center for Career Engagement is an integrated hub, collaborating with campus partners, faculty, and administrators across the university. As part of our holistic approach, we connect with students from Day 1 and move with them throughout their time at WashU—inside the classroom and beyond!

- Our programs support self-exploration. You'll have opportunities to see how your interests and skills fuel the steps to build your career path.
- As a WashU student—and later as an alum—you'll join a global community who will support you.
- Our career coaches will really get to know you. They'll guide you as you develop and hone the skills that are of real interest to employers.
- You'll experience different careers and industries through internships and travel opportunities to cities across the country.

College of Arts & Sciences

Discover new ways of thinking and develop skills indispensable for your life as a leader, innovator, and citizen of the world. Our students can pursue 70+ majors and minors across the natural sciences, social sciences, and humanities. Be a part of our expansive and supportive academic community.

Olin Business School

Become the leader you want to be. First-year entry means you are fully immersed in business principles from day one, learning in a flexible, collaborative environment both in the classroom and through real-world projects.

Sam Fox School of Design & Visual Arts

Join a close-knit community of ambitious, engaged students working to create positive change through architecture, art, and design.

McKelvey School of Engineering

The McKelvey experience prepares engineers to address fundamental challenges in our rapidly changing world. Students explore their interests as they learn from world-renowned faculty pushing the frontiers of science in energy, aerosols, imaging, artificial intelligence, and synthetic biology.

Beyond Boundaries

Collaborative problem-solving lies at the heart of this unique interdisciplinary program. You'll join an ecosystem of like-minded students and build skills to tackle complex challenges that are best addressed by bringing together experts from distinct academic fields.
